PROFESSIONAL EXPERIENCE

<u>Software Engineer II</u>   Nov 2018 – Present
Ontario Systems – Muncie, IN
- Engineer on Sustained Engineering Team, responsible for running sprint planning, daily scrum meetings, estimation meetings, sprint retrospective, and other team sessions
- Reimplemented agile methodologies on the Sustained Engineering Team
- Act as unofficial scrum master by leading scrum processes and keeping track of team progress

<u>Software Engineer I</u>   Aug 2017 – Nov 2018
Ontario Systems – Muncie, IN
- Engineer on Sustained Engineering Team, responsible for running stand ups, estimation meetings, and other team sessions
- Designed, wrote, and helped implement a data cleanup for a client that would resolve over 100,000 records (largest data cleanup ran for the client to date)
- Fixed a bug in the universal installation repository that affects all software products used across the whole company
- Assist support specialists in performing root-cause analysis and providing engineering perspective on issues reported by clients
- Mentor interns and new hires in software application, programming language, and team/company processes

<u>Software Engineer Intern</u>   May 2017 – Aug 2017
Ontario Systems – Muncie, IN
- Nominated as IMPACT Indiana Intern of the Year
- Join Sustained Engineering Team and successfully fixed bugs reported by clients
- Commit changes for production code and merge up to the default master branch
